NPIC/D-301/70

28 SEP 1970

MEMORANDUM FOR: Chief/MRC/IRS

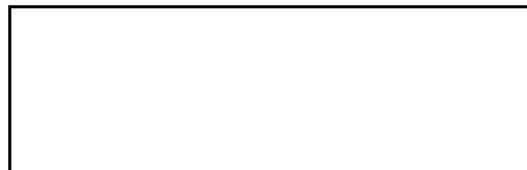

SUBJECT : NPIC Contributions to PFIAB Report
"Coordination of the US Foreign
Intelligence Effort"

1. In response to your request for contributions to the PFIAB report, the Center has no specific items of significance to submit under paragraphs 2a or 2b.

2. Under paragraph 2d, however, I suggest that the following be included, as an update to action noted in last year's report:

There is further improvement in NPIC support to the National Indications Center (NIC) in addition to that reported last year. An agreed statement of procedures and an indications list for imagery interpreters has been signed by NPIC & NIC and forwarded to COMIREX. It is presently being used & reviewed in connection with the current revision of the COMIREX Collection Requirements for Planning (CCRP), and in several ways in connection with COMIREX real-time requirements and targeting plans. It is also currently in use at NPIC by imagery interpreters. COMIREX expects it to be issued as formal guidance soon.

3. Before including this item, I suggest you cross check with

Executive Director
National Photographic Interpretation Center
